## **Mini Art Gallery**

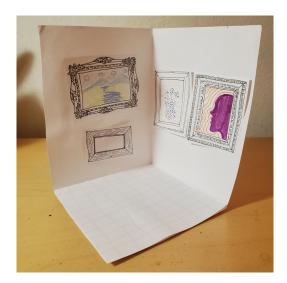

Supplies: plain printer paper, tape or glue, scissors, and any art tools you can find around your house (markers, crayons, paint, etc.)

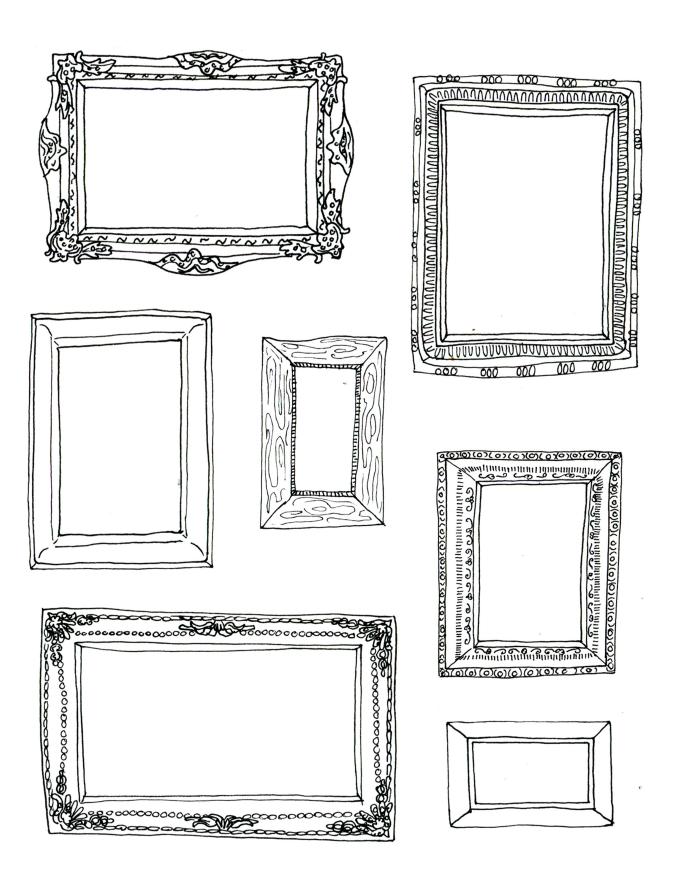

- **Step 1:** Fold your paper in half hot dog style. Unfold the paper and fold it in half again the other way, hamburger style. These folds are your guidelines.
- **Step 2:** Cut one of the lines created by the fold, but only to the center of the paper (as in the diagram to the right).

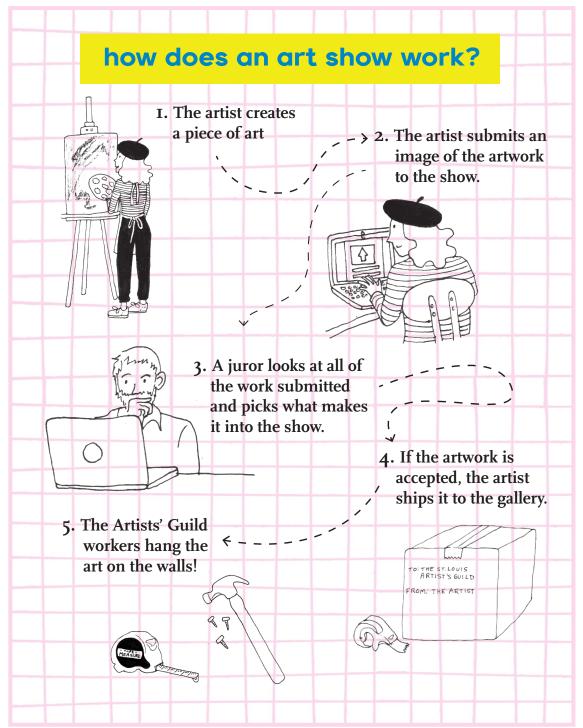

- Step 3: Fold the bottom section that you just cut over the other segment and glue to create a "corner." Trim off the extra paper.
- **Step 4:** Color the floor and walls of your art gallery. It can be as colorful or simple as you would like!
- **Step 5**: Make mini art to fill the walls! You can paint, collage, or draw your artwork. Be creative!

Repeat each step and tape your galleries together to make an entire museum! Use paper, tinfoil, clay, or other objects you find around your house to make sculptures.

## Print these frames and fill them with artwork to hang in your mini gallery or design your own!

Take a virtual visit to the St. Louis Arists' Guild Gallery by watching this video: <u>https://www.youtube.com/watch?v=VVVr5bm0uhA&t=38s</u>

In need of some more inspiration? You can take a virtual tour of these museums online! <u>The Uffizi Gallery in Florence, Italy</u> <u>The Getty Museum in Los Angeles, Califonia</u> <u>The Guggenheim Museum in New York City, New York</u> <u>Musee d'Orsay in Paris, France</u>
